SUMMARY

Frontend focused full stack web developer with practical experience in Next.js, React, and Node.js since 2022. Built and shipped websites for an e-commerce company, a scholarship platform, and a national student event. Led web teams in three organizations, covering recruitment, task planning, and delivery. Seeking a Frontend or Full Stack Developer role.

WORK EXPERIENCE

Head of Web Development, DINAMIK21 (Student committee) Sept 2026 – Dec 2026

- Lead the web team for Dinamik 21, a national event for high school and vocational students. Recruit members, assign work, and review output.
- Build the event website with Next.js and Supabase (dinamik.kemakom.org), with delivery planned for Oct to Dec 2026.

Head of Web Development SYL, Shape Your Life ID (Volunteer, Remote) Apr 2024 – Nov 2025

- Promoted from Frontend Developer to Head of Web Development after one year in the role.
- Built and maintained shapeyourlifeid.com, a scholarship and study abroad information site, using HTML, CSS, Sass, and Bootstrap.
- As Head, designed the site architecture, recruited developers, and managed the team's work.

Frontend Developer, DIVKOMTEKINFO (Student Executive Board) Jan 2025 – Dec 2025

- Developed web features with Laravel and CodeIgniter for the Kemakom web platform.

Frontend Developer Intern, PT Svara Inovasi Indonesia (Bandung, West Java) Jan 2023 – Jun 2023

- Built the storefront for Svara Mart, the company's e-commerce site, with Next.js, Tailwind CSS, and TanStack Query on a WordPress and WooCommerce backend.
- Connected the frontend to backend data through REST APIs and worked on payment integration with Xendit.

Head of Education Department, UKMF Satu Layar (Campus film club) Feb 2026 – Dec 2026

- Lead the education department, which plans training for club members and develops the next generation of club leaders.

PROJECTS

Dinamik 21, National Competition site Sept 2026 - Dec 2026
dinamik.kemakom.org

- Built a website for a national competition for high school or vocational school, and university students across Indonesia. It will also include registration features for seminars and festivals.

- Used Next.js as a full-stack framework and using self-hosted Supabase for database, auth, and storage.

Framic, Photographer Marketplace and Booking Platform Feb 2026 – Jul 2026
framic.my.id

- Built a marketplace where clients find and book curated professional photographers using Next.js, Hono.js, Clerk, and Resend.
- Wrote the API in Hono.js, added user authentication with Clerk, and set up email notifications with Resend.

Raporku, School Reporting Application Oct 2023 – Dec 2023
github.com/dhendisyafaa/raporku_web_client

- Built the web client for an app that makes academic results visible to the school community and supports decisions with dashboard data.
- Used TanStack Table for data tables, TanStack Query for server state, Tremor for dashboard charts, Next.js, Tailwind CSS, and shadcn/ui.

Histobandung, Bandung History Education Site Sep 2025
histobandung.vercel.app

- Built an educational site on the history of Bandung, covering historical buildings, facts, and archive photographs using Next.js, shadcn/ui, Tailwind CSS, and EmailJS.
- Added a contact form through EmailJS and deployed on Vercel.

Viruspace, Virus Education Site Nov 2024 – Dec 2024
viruspace.vercel.app

- Led the web team as Head of Web Development on an educational site about viruses and how to prevent them, including educational games using Next.js and shadcn/ui.

SKILLS
